

IRIS DE L'EAU

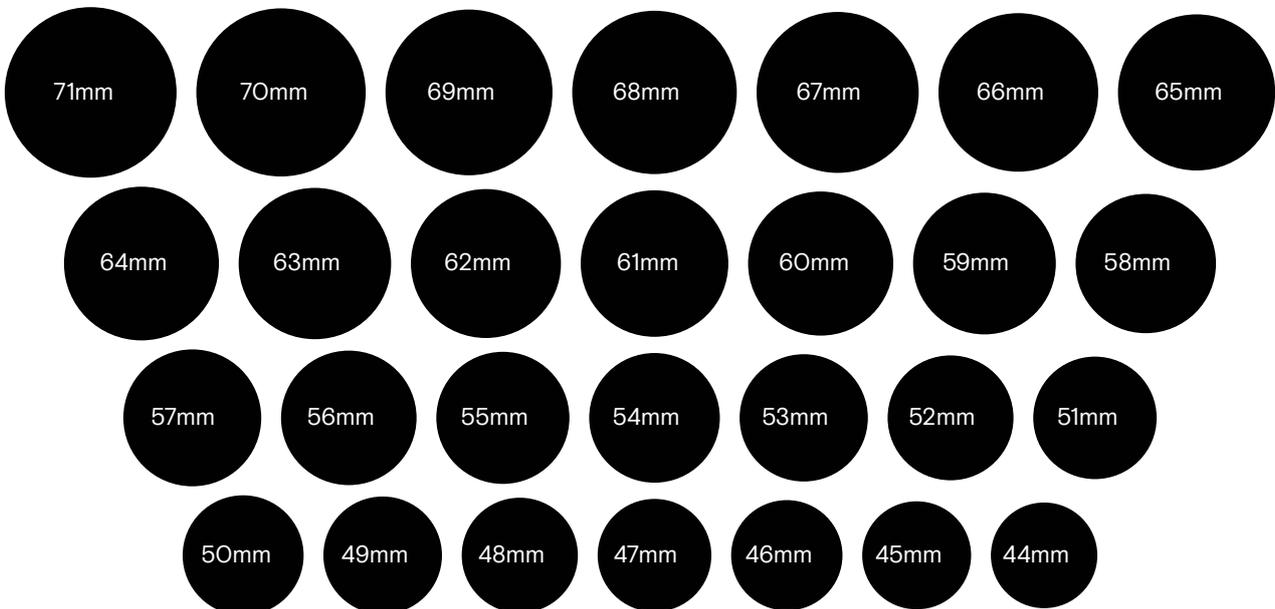

RING SIZE GUIDE

Please set this guide to 100% scale and print it on A4 paper, then use this guide to find your ring size with ease. You can put a credit card or bank card on the rectangle below to verify the accuracy of the printed dimensions. If the length of the card fits in the rectangle, the scaling is accurate.

MEASURE USING A RING:

1. Select a ring that fits the finger you wish to measure.
2. Place it gently over the circles below.
3. Find the black circle where the inside edges of your ring align perfectly with the outer edge of the circle — no overlap, no white space.

4. Once you have found your size in millimetres, return to the IRIS DE L'EAU size chart and match it to the corresponding ring size in the first column ("finger size MM").

If you are between two sizes, we suggest sizing up for thicker bands and down for thinner or open band styles.
